catálogo

Qualidade
& tecnologia

30 lat...

...doświadczenia i tysiące zrealizowanych inwestycji w całej Europie.

Rzetelna, uczciwa i sprawna obsługa klientów, profesjonalizm oraz najwyższa jakość produktów – wszystko to sprawia, że WMB od lat cieszy się niesłabnącym zaufaniem Klientów.

Na każdym etapie realizacji inwestycji możesz liczyć na fachowe doradztwo, dzięki czemu montaż sztukaterii stanie się prostszy i przyjemniejszy, a końcowy efekt zadowoli nawet najbardziej wymagających klientów.

EN

30 years of experience and thousands of projects in whole Europe.

Honest, efficient, professional customer service as well as highest quality of products – all these elements are responsible for the undiminished customer confidence.

On every part of the investment you can count on our professional advice; therefore, the installation is faster, easier and the final effect will satisfy even the most choosy tastes.

PT

30 anos de experiência e milhares de projetos em toda a Europa.

Com um serviço profissional, eficiente e honesto, bem como a mais alta qualidade dos nossos produtos traduzem-se numa confiança inabalável junto do cliente.

Em qualquer altura você pode contar com o nosso aconselhamento profissional; portanto, conseguirá uma instalação mais rápida, mais fácil e com os efeitos finais que irão convencer até mesmo os mais céticos.

Technologia & materiały

Do produkcji naszych wyrobów stosujemy wyłącznie najwyższej jakości atestowane surowce. Rdzenie produktów wykonane są z twardych pianek polistyrenowych EPS lub poliuretanowych PU. Powłoki zewnętrzne to dyspersje styrenowo-akrylowe, z dodatkami modyfikującymi i wypełniaczami kwarcowymi oraz powłoki cementowe zbrojone włóknem szklanym.

Dbamy o Środowisko! Nasze produkty są wolne od szkodliwych substancji, przez co są bezpieczne dla ludzi i środowiska.

Dysponujemy **unikalną technologią** i materiałami pozwalającymi wiernie odtworzyć dowolny detal architektoniczny.

Nasze produkty to nie tylko **elegancja i estetyka**, to połączenie dawnych tradycji dekoratorskich z najnowocześniejszymi technologiami stosowanymi w budownictwie.

UWAGA! Kolor produktów przedstawionych w katalogu jest kolorem przykładowym.

Technology & Materials

Our Products are manufactured only from top-quality certified raw materials. Product cores are made from expanded polystyrene foams (EPS) or polyurethane PU. The exterior coating is styrene-acrylic dispersion with additional modifiers and quartz fillers as well as rebared cement fiber glass.

We care about the environment! Our Products are free from harmful substances for people and environment.

We have a **unique technology** and materials which allow us easily reconstruct a given architectural detail.

Our products are not only **aesthetic and elegant**, but also, are a bridge between past decoration traditions and technological novelties in building.

CAUTION! The colour of the products presented in this catalogue is only an exemplary colour.

EN

Tecnologia & Materiais

Os nossos produtos são fabricados apenas com matérias-primas certificadas e de alta qualidade. Os núcleos são produzidos em poliestireno expandido (EPS) ou poliuretano (PU). O revestimento exterior é uma dispersão de estireno-acrílico com a adição de agentes modificadores e agregados minerais, bem como com fibra de vidro reforçada com cimento.

Nós preocupamo-nos com o meio-ambiente! Os nossos produtos são livres de substâncias nocivas para as pessoas e para o meio ambiente.

Com uma **tecnologia única** e em conjunto com os nossos materiais, estamos habilitados a reconstruir qualquer pormenor arquitetónico.

Os nossos produtos não são apenas **estéticos e elegantes**, mas também, são uma ponte entre o tradicional e as inovações tecnológicas na construção.

ATENÇÃO! As cores apresentadas neste catalogo são meramente exemplificativas.

PT

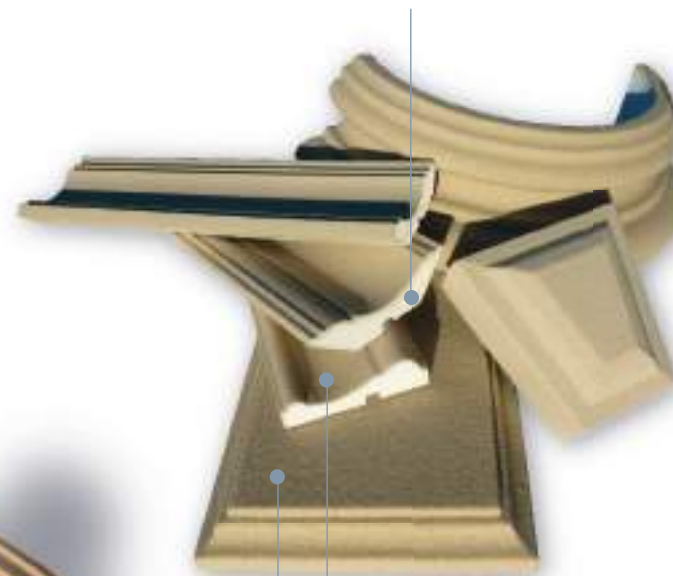

Garantia da mais alta qualidade

-  **łatwy montaż** / easy installation / fácil instalação
-  **odporność na warunki atmosferyczne**
/ resistant to weather conditions / resistente às condições climáticas
-  **nadające się do malowania** / can be painted /
pode ser pintado
-  **wytrzymałe i elastyczne** / robust and flexible /
robusto e flexível
-  **przyjazne dla środowiska** / environment friendly /
amigo do ambiente
-  **samogasnące** / self-extinguishing / auto-extinguível
-  **nietoksyczne** / non-toxic / atóxico

O núcleo é produzido em poliestireno
expandido de alta qualidade EPS200

Dois tipos de revestimentos acrílicos de estireno:

- suave, com bordas afiadas
- grosseiro, imitando arenito natural

Alta flexibilidade e durabilidade

Zamówienia indywidualne

Doświadczenie, wykwalifikowana załoga oraz najnowocześniejszy park maszynowy umożliwia nam realizację każdego zlecenia:

- rzeźby 3D (w dowolnym rozmiarze)
- płaskorzeźby
- formy tracone
- scenografie filmowe i teatralne
- panele dekoracyjne
- elementy reklamowe
- detale architektoniczne

EN

Special orders

Experience, qualified crew, and a new machine park which enables us the completion of every order:

- 3D Sculptures (in any size)
- Reliefs
- Molds
- Movie and Theatre Scenography
- Decorative Panels
- AD Elements
- Architectural Details

Pedidos especiais

Uma equipa experiente e qualificada e a mais moderna maquinaria permitem-nos fabricar qualquer encomenda:

- Esculturas 3D (em quaisquer dimensões)
- Altos-relevos e baixos-relevos
- Moldes
- Cenografia
- Painéis decorativos
- Elementos publicitários
- Pormenores arquitetónicos

Legenda:

nowość / new / novo

Łuki

Arches / Arcos

Jesteśmy w stanie wykonać praktycznie każdy element łukowy, według dowolnego przekroju listew i gzymsów.

Szczegółowe informacje dotyczące w jaki sposób wykonać prawidłowy pomiar łuków, znajdą Państwo na naszej stronie internetowej.

EN

We are able to manufacture virtually every arch element according to a given facade profile or cornice cross-section.

Particular informations concerning how to make a proper arch measurement are to be discuss with our professional team.

PT

Somos capazes de fabricar praticamente todos os elementos de arco de acordo com um determinado perfil de fachada ou seção transversal da cornija.

Informações mais específicas sobre como elaborar corretamente um arco deve ser sempre supervisionada pelos nossos profissionais.

Kleje, farby i szpachle

W celu wykonania prawidłowego montażu sztukaterii WMB, zalecamy stosowanie następujących produktów:

Super elastyczna i wysokiej jakości farba WMB – dedykowana do zastosowań zarówno we wnętrzach, jak i na elewacji. Istnieje możliwość zamówienia farby w kolorze wg. kolornika RAL.

Klej typu Izohan Styropuk to jednoskładnikowy, elastyczny i niskoprężny klej poliuretanowy do mocowania sztukaterii elewacyjnej.

Chcąc wykonać prawidłowe spoinowanie naszych produktów polecamy zastosowanie masy naprawczej WMB.

Skrzynka uciosowa do sztukaterii to produkt, który ułatwi docinanie listew, gzymsów oraz innych elementów pod odpowiednim kątem.

Parametry techniczne korytka:

- Maksymalna szerokość ciętej listwy: 21 cm
- Maksymalna wysokość ciętej listwy: 20 cm
- Długość skrzynki: 50 cm

Adhesive, Paints, Repair Compound

In order to install properly the WMB Stucco we recommend the following products:

Extra flexible and high quality WMB paint – dedicated for the application in the interiors as well as on the facade. There is a possibility to order paints according to RAL colour chart.

Adhesive like Izohan Styropuk is a one component, flexible and low-pressure polyurethane adhesive for the gluing of exterior moulding.

In order to perform the proper grouting of our products we recommend the application repair compound WMB.

Mitre Box for stucco is a product which makes easy the cutting of profiles, cornices and other elements in the right angle.

Mitre Box Technical Parameters:

- Max width of cut profile: 21 cm
- Max height of cut profile: 20 cm
- Length of mitre box: 50 cm

Adesivos, Tintas e Argamassas de rejuntamento/reparação

Para uma correta instalação das molduras WMB recomendamos o uso dos seguintes produtos:

Tinta WMB extra flexível e de alta qualidade - dedicada à aplicação tanto no interior como no exterior. Existe a possibilidade de afinar a cor de acordo com a paleta de cores RAL.

Adesivo do tipo Izohan Styropuk é uma espuma de poliuretano monocomponente, flexível e de baixa expansão para colagem das molduras.

Para realizar o rejuntamento adequado das nossas molduras, recomendamos o uso da nossa argamassa de rejuntamento/reparação WMB.

A caixa de esquadria é uma ferramenta que facilita o corte dos perfis, cornijas e outros elementos com o correto ângulo ou inclinação.

Especificações técnicas da caixa de esquadria

- Largura máxima de corte - 21 cm
- Altura máxima de corte - 20 cm
- Comprimento da caixa de esquadria - 50 cm
